# AB- OUT US

Everyone wants to walk into a home that is both warm and welcoming, without compromising on style and durability. Spentagon is collection of wood effect floor coverings, all beautifully replicated to give the appearance of natural textures to enhance your home's interior. Drawing inspiration from various wood species finishes, including rustic reclaimed planks to smooth contemporary tiles, Spentagon has a design to suit every room in your home..

## SNAKER

Collection

Let your floors do  
the talking with our  
premium craftsmanship.

[www.spentagonceramic.com](http://www.spentagonceramic.com)

The image displays a complex, organic pattern resembling a snake's skin or a topographical map. The pattern is composed of irregular, interconnected shapes in various shades of beige, tan, and light brown, set against a darker beige background. The lines between the shapes are thin and white, creating a high-contrast, textured effect. The overall appearance is that of a natural, flowing design.
